

## Our production sites

Since May 2019, we are open about the locations of the factories that manufacture products for Zeeman. By signing the Transparency Pledge, we confirm our commitment to greater transparency.

Zeeman does not have its own factories, so the factories it uses also produce for other brands and retailers. We invest in long-term partnerships and know the factories we work with.

All our factories have signed our Code of Conduct.

This file contains the locations of the factories that produce for Zeeman. The following information is shared: name, address, number of employees, start date of cooperation, whether they make textiles or other products, and whether they use sustainable cotton and/or have Oeko-Tex certification.

We only mention the factories we work with on a structural basis (i.e., for more than a year). In the first year, we assess whether suppliers operate in accordance with international ethical guidelines or are willing to make the necessary improvements to working conditions and quality processes at the factory. We'll update the data twice a year.

Alphen aan de Rijn, May 2019
